Prices in euros ex. VAT

Item code	Item	Price
	HARDWARE	
H2	DESKTOP Control unit - Logitech G29 Drive Force steering wheel + pedals - Logitech Drive Force Shifter	€498,-
H3	COMPUTER to address 4 monitors, installed and configured	€1.717,-
H3l	COMPUTER for 1 display software , installed and configured	€1.170,-
H4	MONITORS 4 x 23 inch	€800,-
H5	SOUNDSYSTEM + Headtracker	€385,-

	SOFTWARE	
	DRIVER TRAINING SOFTWARE	
S1	**Driver training and runtime licence**. Runtime simulation software + Driver training modules + Safety awareness modules 3 display version.	€1.500,-
	Driver training modules consists of 64 simulations/tests in 15 different virtual environments + Student Assessment System + Virtual Instructor	
	RESEARCH SIMULATOR SOFTWARE	
S2	**Research simulator** modules: - Road designer, to create new virtual environments or modify existing ones - Data analysis module - Scenarioscript generation software - Experiment preparation software - Scenario script of all driver training simulations + sources of the 15 virtual environments - Example experiments This module requires module S1, so the total cost of a research simulator software licence is €2.500,-	€1.000,-
S1+S2 second licence	**Research simulator**: Second licence for experiment preparation, scenario and experiment testing and data analysis can be purchased at a reduced price. This allows you to run your experiments on one computer, while preparing and testing on a second computer.	€1.500,-

CLINICAL TESTS/MODULES		
S3a	**Clinical modules and runtime licence**, including tests for assessment of driver fitness, **3 display version**.	€1000,-
S3b	**Clinical modules and runtime licence**, including tests for assessment of driver fitness, **single display version**.	€750,-
S2-3	Limited research simulator software for use on the clinical simulations/tests and virtual environments so you can do your own research. Contains scenario scripts generation software, data analysis module + scenario script of the 12 clinical simulations (not the road designer). Only in combination with S3a or S3b	€500,-
	Clinical modules consists of 12 simulations/tests in 5 different virtual environments	

COMPLETE SYSTEMS	
COMPLETE **DESKTOP TRAINING** SIMULATOR: - Desktop control unit H2 - Computer H3 - Monitors H4 - Soundsystem + Headtracker H5 - Runtime simulation software S1 (incl. driver training software)	**€4.900,-**
COMPLETE DESKTOP **RESEARCH SIMULATOR**: - Desktop control unit H2 - Computer H3 - Monitors H4 - Soundsystem + Headtracker H5 - Runtime simulation software S1+S2 (incl. driver training software)	**€5.900,-**
COMPLETE **CLINICAL ASSESSMENT SIMULATOR** 4-display system: - Desktop control unit H2 - Computer H3; - Monitors H4 (4 monitors) - Soundsystem - Runtime simulation software S3, 3-display rendering	**€4.115,-**
COMPLETE **CLINICAL ASSESSMENT SIMULATOR** 1-display system: - Desktop control unit H2 - Computer H3l; - 1 monitor - Soundsystem - Runtime simulation software S3, single display version	**€2.718,-**
