Valid 2 months

Prices in euros excl. VAT

Item code	Item	Price
HARDWARE		
H2	DESKTOP Control unit - Logitech G29 Drive Force steering wheel + pedals - Logitech Drive Force Shifter	€500,-
H3	COMPUTER to address 4 monitors, installed and configured	€2.150,-
H3I	COMPUTER for 1 display software, installed and configured	€1.500,-
H4	MONITORS 4 x 23 inch	€800,-
H5	SOUNDSYSTEM + Headtracker	€385,-
SOFTWARE		
DRIVER TRAINING SOFTWARE		
S1	Driver training and runtime licence. Runtime simulation software + Driver training modules + Safety awareness modules 3 display version. Driver training modules consists of 64 simulations/tests in 15 different virtual environments + Student Assessment System + Virtual Instructor	€1.500,-
RESEARCH SIMULATOR SOFTWARE		
S2	Research simulator modules: - Road designer, to create new virtual environments or modify existing ones - Data analysis module - Scenarioscript generation software - Experiment preparation software - Scenario script of all driver training simulations + sources of the 15 virtual environments - Example experiments This module requires module S1, so the total cost of a research simulator software licence is €2.500,-	€1.000,-
S1+S2 second licence	Research simulator: Second licence for experiment preparation, scenario and experiment testing and data analysis can be purchased at a reduced price. This allows you to run your experiments on one computer, while preparing and testing on a second computer.	€1.500,-
CLINICAL TESTS/MODULES		
S3a	Clinical modules and runtime licence , including tests for assessment of driver fitness, 3 display version .	€1000,-
S3b	Clinical modules and runtime licence , including tests for assessment of driver fitness, single display version .	€750,-
S2-3	Limited research simulator software for use on the clinical simulations/tests and virtual environments so you can do your own research. Contains scenario scripts generation software, data analysis module + scenario script of the 12 clinical simulations (not the road	€500,-

	designer). Only in combination with S3a or S3b	
	Clinical modules consists of 12 simulations/tests in 5 different virtual environments	
SUPPORT AND DEVELOPMENT (see support agreement for more details)		
S4	Support voucher: A support voucher gives access to 5 hours of paid support. The user can purchase a support voucher any time and the 5 hours of support can be freely used when the user wants. After the 5 hours of support are used, the user will be notified via email. The support voucher expires 2 years after the date of purchase	€350,-
S5	Carnetsoft can be hired on a project basis for a rate of €75,- per hour (excl. VAT, if applicable). When the requirements are specified by the user, Carnetsoft will make a quote with the number of hours and total cost specified.	
COMPLETE SYSTEMS		
	COMPLETE DESKTOP TRAINING SIMULATOR:	€5.335,-
	<ul style="list-style-type: none"> - Desktop control unit H2 - Computer H3 - Monitors H4 - Soundsystem + Headtracker H5 - Runtime simulation software S1 (incl. driver training software) 	
	COMPLETE DESKTOP RESEARCH SIMULATOR:	€6.335,-
	<ul style="list-style-type: none"> - Desktop control unit H2 - Computer H3 - Monitors H4 - Soundsystem + Headtracker H5 - Runtime simulation software S1+S2 (incl. driver training software) 	
	COMPLETE CLINICAL ASSESSMENT SIMULATOR 4-display system:	€4.450,-
	<ul style="list-style-type: none"> - Desktop control unit H2 - Computer H3; - Monitors H4 (4 monitors) - Soundsystem - Runtime simulation software S3a, 3-display rendering 	
	COMPLETE CLINICAL ASSESSMENT SIMULATOR 1-display system:	€2.950,-
	<ul style="list-style-type: none"> - Desktop control unit H2 - Computer H3I; - 1 monitor - Soundsystem - Runtime simulation software S3b, single display version
