# LIST PRICES

Valid from January  1, 2023

Prices in euros excl. VAT

| Item code | Item | Price |
|---|---|---|
| | **HARDWARE** | |
| | Carnetsoft does not sell any hardware. Customers are advised to buy all hardware (computer, monitors, steering wheel and pedals etc.) in their country because:<br>- it saves high transport costs and import taxes<br>- faster repairs in case of hardware failure<br>- its usually cheaper if you buy the hardware locally<br>- in a number of countries import regulations result in higher costs because of export documents.<br><br>Here's a link to the required hardware specs:<br>https://cs-driving-simulator.com/downloads/specs.pdf | |

| | | |
|---|---|---|
| | **DRIVER TRAINING SOFTWARE** | |
| | The driver training software for driving schools has been terminated. Carnetsoft specialized in research simulation software and clinical applications and this takes up all available time and resources. | |
| | | |
| | **RESEARCH SIMULATOR SOFTWARE** | |
| S2 | - Runtime simulation software<br>-  Driver training modules + Safety awareness modules 3 display version<br>- 64 simulations/tests in 15 different virtual environments + Student Assessment System + Virtual Instructor<br>- Road designer, to create new virtual environments or modify existing ones<br>- Data analysis module<br>- Scenarioscript generation software<br>- Experiment preparation software<br>- Scenario script of all driver training simulations, all can be used as experiments + sources of the 15 virtual environments<br>- includes the Clinical modules (S3)<br>- Example experiments | €2.750,- |

| CLINICAL TESTS/MODULES | | |
|---|---|---|
| S3 | **Clinical modules and runtime licence**, including tests for assessment of driver fitness, **3 display version**. | €1250,- |
| S2-3 | Limited research simulator software for use on the clinical simulations/tests and virtual environments so you can do your own research. Contains scenario scripts generation software, data analysis module + scenario script of the 12 clinical simulations (not the road designer).<br>Only in combination with S3 | €750,- |
| | Clinical modules consists of 12 simulations/tests in 5 different virtual environments | |
| | | |
| | **SUPPORT AND DEVELOPMENT, see support agreement for more details:**<br>https://cs-driving-simulator.com/downloads/SupportAgreement.pdf | |
| S4 | Support voucher: A **support voucher** gives access to 5 hours of paid support.  The user can purchase a support voucher any time and the 5 hours of support can be freely used when the user wants. After the 5 hours of support are used, the user will be notified via email. The support voucher expires 2 years after the data of purchase | €625,- |
| S5 | Carnetsoft can be hired on a project basis for a rate of €125,- per hour (excl. VAT, if applicable). When the requirements are specified by the user, Carnetsoft will make a quote with the number of hours and total cost specified. | |
| S6 | Updates and upgrades. These require a re-installation of the software. These are country-specific: all databases and simulations use road signs and rules of the road for the country where the customer resides. When a new update (with improvements in the software), or an upgrade (new version of the rendering system, substantial extensions of functionality) is available, the user can download the installation of the software from the website of Carnetsoft, after receiving  download links via email. The installation is via TeamViewer. | €750,- |
